# Second Oklahoma Prostate and Urologic Cancers Symposium

## THE SECOND OKLAHOMA PROSTATE AND UROLOGIC CANCERS SYMPOSIUM

is held through the University of Oklahoma and the Stephenson Cancer Center to provide new insights in the treatment of prostate and urologic cancers. This single-day program will consist of lectures and case discussions highlighting a multidisciplinary approach to urologic cancer care and integration of new technology in the evaluation and treatment of prostate cancer patients. Evidence based medicine highlighting relevant clinical trial data will be provided as well as focusing on current controversies in prostate cancer management.

## INTENDED/TARGET AUDIENCES

Urologists, Medical Oncologists, Radiation Oncologists, Primary Care and Advanced Practice Providers (NP and PA's)

## LEARNING OBJECTIVES

Upon completion of this meeting, participants will improve their competence and performance by being able to:

1. Describe guidelines for bladder cancer detection and management.
2. Describe therapies and treatments for kidney cancer.
3. Identify the new genetic markers and their use in the detection and management of prostate cancer.
4. Describe the risks and benefits of the various treatment modalities for localized prostate cancer.
5. Identify strategies for improved quality of care in survivorship for prostate cancer patients.
