# References

**Instructions:** If references are included within your presentation slides, delete this slide. If no references are included within your presentation slides, add the list of references on this slide within this box. References are required.

*(Please delete these instructions.)*

There is a difference between a Works Cited page, a References page, and a Bibliography. A Works Cited page is a list of only those sources actually cited in your presentation. Sources to which you referred when researching your presentation, but did not actually cite, belong on the References page. A Bibliography is the same thing as a References page, but only books may be included in a proper Bibliography. If even one of your sources is a non-book (i.e., a magazine, tape, newspaper), then the correct heading for the page is References.

# Additional Resources

**INSTRUCTIONS:** This slide should be used if you have additional information, research, checklist, patient education material, websites or related evidence-based articles which would reinforce the learning objectives, gaps and educational outcomes of this presentation. (Criterion 32)
