

Allison Long

Allison Long is the Residency Program Coordinator for the Pediatric Hospital Medicine section at the University of Oklahoma Health Sciences Center. She is originally from Augusta, Maine, and completed her undergraduate education at Coastline Community College with an Associates of Arts degree in Business Administration.

Being a military spouse for over 20 years, she has lived in different areas of the country gaining many opportunities to meet new people and learn about diverse locations. In the summer of 2018, her family permanently settled in Oklahoma where she gained employment at OUHSC as Lead Administrative Support Specialist in the Department of Otolaryngology Head and Neck Surgery. In August of 2022, she transferred to her current role in the Department of Pediatrics.

In her spare time, Allison enjoys spending time with her husband and two children, reading, hiking, and being outdoors.
