

Danial is a second-year medical student with a passion for leadership and education in healthcare. He previously served as the Student Government Executive Council Diversity Chair and is currently the IPE Liaison for SGA, IEPA Student-Faculty Advisory founding member, and student-led Unity Clinic founder/chair. Through his leadership roles, Danial has led various initiatives centered around diversity and inclusion that incorporate interdisciplinary principles. As a first-generation American, Danial recognizes the importance of communication and understanding between different populations of people. He believes healthcare has the unique power to transcend our differences and bring people together.

In addition to professional interests, Danial is an award-winning filmmaker. His previous works have been recognized by The National YoungArts Foundation, Scholastic Art and Writing, C-SPAN, deadCenter, and OETA to name a few. Using his experience in storytelling, Danial hopes to break down communication barriers between the medical community and the public.
