

Holly Wledon

I am a senior administrative assistant employed by the University of Oklahoma Health Sciences Center since March of 2011. I started my career with the University in the department of dermatology Enid satellite clinic working part-time as a file clerk. In 2011 when the Enid office closed I moved to Oklahoma City to work on the Health Sciences Center campus in the dermatology clinic. In January 2013 I transferred over to the academic administrative offices for the department of urology. After 4 years as an administrative assistant in dermatology I applied for the same position in the department of urology where I am currently employed.
