

**Usman Baber, MD, MS, FACC, FSCAI**

Director, Interventional Cardiology, University of Oklahoma HSC  
Director, Cardiac Catheterization Laboratory at the University of Oklahoma HSC  
Associate Professor of Medicine  
University of Oklahoma Health Sciences Center  
Department of Cardiology  
Oklahoma City, OK

Dr. Baber is an Associate Professor of Medicine at the University of Oklahoma Health Sciences Center and serves as the Director of Interventional Cardiology and the Cardiac Catheterization Laboratory. Prior to joining OU, Dr. Baber served as the Director of Cath Lab Quality and Outcomes Research within the Cardiovascular Institute at Mount Sinai. Dr. Baber is a graduate of Rice University and earned his medical degree at the University of Texas Southwestern Medical Center in Dallas, Texas, where he also completed his Internship and Residency in internal medicine. He subsequently moved to New York City where he completed fellowships in Clinical Cardiology and Coronary Vascular Intervention at the Mount Sinai Medical Center. During his fellowship training he also earned a Master's Degree in biostatistics from the Mailman School of Public Health at Columbia University.

From a clinical standpoint Dr. Baber focuses on complex, high-risk coronary interventions. Research interests include clinical and translational projects related to bleeding, thrombosis and platelet function. Most recently Dr. Baber served as the Chair of the Clinical Coordinating Center for the international, randomized TWILIGHT trial, which was published in the NEJM in 2019. He is a frequent lecturer at international cardiology conferences, serves on the Editorial Boards of numerous peer-reviewed journals and teaches clinical trial design and biostatistics for the interventional cardiology board review course sponsored by the American College of Cardiology.
