

Jamalé Rohnquist Bassue
MS3 – OU College of Medicine

Born and raised on the island of Saint Kitts in the Eastern Caribbean, I am a current 3rd year medical student at the University of Oklahoma College of Medicine. Through my journeys, I have welcomed and embraced a diverse array of experiences that have framed my current interests; including the consequences of healthcare disparities and how these disproportionately affect skin of color. I am particularly interested in the practice of dermatology and its implications in improving healthcare outcomes for racial and ethnic minorities.
