### Salvage Surgery after Chemo radiation for Head and Neck Cancer- Is it worthwhile

Friday, May 10, 2019

8:00 – 9:15 a.m. SCC 6039

**Greg A. Krempl, MD, FACS**  
Paul and Ruth Jonas Chair in  
Cancer, Professor and Chairman,  
Department of Otolaryngology Head  
and Neck Surgery

**Professional Practice Gap:** Medical Oncologist often provide 1<sup>st</sup> line therapy for head and neck cancer patients treated with organ preservation. They do not often have long term follow-up on what happens when patients recur locally after organ preservation. This will provide insight on the management of these patients.

**Objectives:** Upon completion of this session, participants will improve their competence and performance by being able to:

- Review Requested Success of Surgical Salvage
- Review Reconstructive techniques
- Calculate cost/benefit rotation & quality of life
- Identify Indications for surgical salvage

Disclosure & Resolution Report

The University of Oklahoma College of Medicine and the Irwin H. Brown Office of Continuing Professional Development must ensure balance, independence, objectivity and scientific rigor in all its activities. We have implemented a process where everyone who is in a position to control the content of an educational activity has disclosed to us all relevant financial relationships with any commercial interest. In addition, should it be determined that a conflict of interest exists as a result of a financial relationship one may have, this will be resolved prior to the activity. This policy is designed to provide the target audience with an opportunity to review any affiliations between the CME organizers and presenters and supporting organizations for the purpose of determining the potential presence of bias or influence over educational content. The following is a summary of this activities disclosure information.
