*Former OU Family Medicine colleagues have told us their time here inspired their future accomplishments. Are there things you've been able to do which had their origins in a peer's comment, a lecture pearl, or a skill you developed while here? Be thinking about ways you have been able to do good in the world because of your time at OU Family Medicine. This will be a good opportunity to share those stories with us so we can see the ripple effect OU Family Medicine has had in various communities.*

## COURSE DESCRIPTION AND PURPOSE:

This intensive one half-day course includes an update on important Family Medicine topics. This half-day course is for previous OU Family Medicine graduates from the Oklahoma City area. These courses are taught by faculty members selected for their expertise in areas related to the successful delivery of family health care and patient outcomes. Each of these speakers is a nationally recognized speaker for their expertise in the management of complex conditions. Each session will include time for questions and answers. The course combines best practice strategies and education through case studies and lectures. Over 60 pages of syllabus materials are provided online as a resource for today's office practice. The purpose of this educational activity is to improve the care of patients seen in primary care settings by closing common clinical practice gaps that have been identified across the country.

DEPARTMENT OF FAMILY AND  
PREVENTIVE MEDICINE

In 1968, the OU Family Medicine Residency Program became one of the first four Family Medicine programs in the United States. With Dr. Roger Lienke as Program Director, we produced our first graduate in June 1969.

Fifty years later, the Oklahoma City, Enid, Shawnee, and Lawton Family Medicine Residency Programs have produced over 700 graduates and numerous outstanding faculty.
