COURSE DESCRIPTION AND PURPOSE:

This full day activity for community pediatricians provides both active-learning, lecture-based sessions and workshops to cover best practice in primary care pediatrics. This activity helps community physicians stay up to date with evidence-based presentations in rapidly changing areas of pediatric practice so they can delivery best practice to their patients. See attached schedule for details of the CME activity.

INTENDED/TARGET AUDIENCE:

General Pediatrics, Pediatrics

COURSE GOAL:

To provide physicians and other providers caring for children with current evidence-based practice guidelines relevant to the field of **general pediatrics**, augmenting the skill set and knowledge base needed to care for **patients in a primary care practice**.

LEARNING OBJECTIVES:

Upon completion of this activity, participants will improve their competence and performance by being able to:

1. **Explain the benefits of early childhood literacy interventions to the developing child.**
2. **Describe the new treatment recommendations for patients with IBD.**
3. **Identify two techniques you can use in your practice to overcome vaccine hesitancy.**
4. **Explain how to evaluate a patient's complaint of joint pain.**
5. **Describe the ways you can combat the opioid epidemic in clinical practice**
6. **Describe the signs, symptoms and treatment of pediatric eczema.**
7. **Summarize current Oklahoma Health Care Authority child health initiatives.**
8. **Describe how to identify children with problematic sexual behavior and how you can help them.**
