Title:

**“TRAUMA MTP SIMULATION FOLLOW-UP”**

Presented by:

**EDWARD KOSIK, DO**

**Professional Practice Gap(s):**

1. OU has not conducted a large scale trauma/team training simulation for multiple years.
2. Emergency room, operating room, and intensive care teams have limited time to interact with each other using simulation to identify system flow challenges.
3. Simulation is one of the safest ways to test blood product management that takes place in different clinical environments without risks to patients.

**Learning Objectives** - Upon completion of this session, participants will improve their competence and performance by being able to:

1. **Operate/Manage the trauma patient with multiple injuries**
2. **Apply appropriate communication principles between the surgery, anesthesia, nursing teams and support staff.**
3. **Employ OU's massive transfusion protocol.**
4. **Express/verbalize appropriate information during the transfer of care.**

#### Disclosure & Resolution Report

The University of Oklahoma College of Medicine and the Irwin H. Brown Office of Continuing Professional Development must ensure balance, independence, objectivity and scientific rigor in all its activities. We have implemented a process where everyone who is in a position to control the content of an educational activity has disclosed to us all relevant financial relationships with any commercial interest. In addition, should it be determined that a conflict of interest exists as a result of a financial relationship one may have, this will be resolved prior to the activity. This policy is designed to provide the target audience with an opportunity to review any affiliations between the CME organizers and presenters and supporting organizations for the purpose of determining the potential presence of bias or influence over educational content.
