### Interventional Pulmonology (IP) Role in diagnostics and therapeutics of malignant and non-malignant conditions

Friday, June 19, 2020

Zoom Lecture

**Fawad Chaudry, MD, FCCP**  
Assistant professor and Director  
Interventional Pulmonology Center  
OUHSC

**Professional Practice Gap:** In various Community and University settings, role of Interventional Pulmonology (IP) Services in diagnosis (including staging), treatment and palliation of lung cancers or nodules, is not clearly understood and or under-utilized. . That can potentially lead to over or under staging, missing diagnosis of early lung nodules and sometimes losing the window of opportunity to provide palliation in patients with advanced lung cancer. More so, its role in non-malignant conditions of lungs is not completely understood

**Objectives:** Upon completion of this session, participants will improve their competence and performance by being able to:

Recognize the role of IP in mediastinal staging in lung cancer diagnosis

Recognize the role of mediastinoscopy, EBUS ( Endobronchial ultrasonography), EUS (Endoscopic Ultrasonography) and combined EBUS/EUS in mediastinal staging.

Recognize the role of IP in diagnosis of early lung nodules ( Navigation Bronchoscopy)

Assess the role of therapeutic Bronchoscopy for palliation of lung and metastatic malignancies

Describe the role of therapeutic Bronchoscopy in non-malignant lung conditions

Review various case studies

Disclosure & Resolution Report

The University of Oklahoma College of Medicine and the Irwin H. Brown Office of Continuing Professional Development must ensure balance, independence, objectivity and scientific rigor in all its activities. We have implemented a process where everyone who is in a position to control the content of an educational activity has disclosed to us all relevant financial relationships with any commercial interest. In addition, should it be determined that a conflict of interest exists as a result of a financial relationship one may have, this will be resolved prior to the activity. This policy is designed to provide the target audience with an opportunity to review any affiliations between the CME organizers and presenters and supporting organizations for the purpose of determining the potential presence of bias or influence over educational content. The following is a summary of this activities disclosure information.

| Role                         | First Name | Last Name         | Nature of Relevant Financial Relationship   |                    |                |
