## **“Patient Conference”**

-----  
Presented by:

### **Ed Overholt, MD; Harold Burkhart, MD**

#### Professional Practice Gaps:

A wide variety of specialty areas are required in order to care for congenital heart disease patients. There is a need to review diagnostic and treatment issues and options.

Learning Objectives - Upon completion of this session, participants will improve their competence and performance by being able to:

- Evaluate the preoperative history and physical examination of a child with congenital heart disease
- Identify appropriate preoperative testing, and the correct interpretation of these tests
- Identify best clinical practices in the management of these patients
- Distinguish errors and risk factors that can lead to complications
- Integrate effective communication among our expanding group

**Disclosure & Resolution Report**

The University of Oklahoma College of Medicine and the Irwin H. Brown Office of Continuing Professional Development must ensure balance, independence, objectivity and scientific rigor in all its activities. We have implemented a process where everyone who is in a position to control the content of an educational activity has disclosed to us all relevant financial relationships with any commercial interest. In addition, should it be determined that a conflict of interest exists as a result of a financial relationship one may have, this will be resolved prior to the activity. This policy is designed to provide the target audience with an opportunity to review any affiliations between the CME organizers and presenters and supporting organizations for the purpose of determining the potential presence of bias or influence over educational content. The following is a summary of this activities disclosure information.
