ACC CHAPTER
PRESIDENT;
MEMBER, ACC
BOARD OF
GOVERNORS

You are cordially invited to attend the 2020 Oklahoma Chapter American College of Cardiology Annual Scientific Meeting on Saturday, April 25. The meeting site will be at the Rainbolt Family Auditorium in the Samis Education Center on the OU Health Sciences Center campus. This exciting program features speakers from both Oklahoma and outside. Please plan to attend this session, which provides a great opportunity to earn up to 4.75 *AMA PRA Category 1 Credits™*, to listen to nationally noted speakers, to network with cardiac care providers from diverse communities within the state and to get to know cardiology fellows-in-training.

Cardiovascular science is constantly evolving, with both new discoveries and new therapies being published each year. This educational activity will provide the cardiovascular professional team with an update on a selected number of high-priority items identified from environmental scanning, with discussion of both the science and evidence behind current recommendations. The overall goal for this year's conference is improvement of patient care through increasing learner competence, leading to improved performance in applying evidence-based treatment options. Topics emphasized at this session will include: Edge to Edge Repair in Functional Mitral Regurgitation: New Insights and the Role of Echocardiography, 2-Dimensional LV Deformation Imaging with Echo: Its Role in Today's Echo Lab as a Tool for 'Pre-clinical' LV dysfunction and 'Prognostic' tool in Valvular Heart Diseases, Antiplatelet therapy after PCI or ACS: Contemporary Approaches and Evolving Paradigms, and Venous Thromboembolism: Update on Treatment and Prevention.

This is a great opportunity to bring your whole team for a day of great professional development.

The ACC is our professional association and each of you, as Oklahoma ACC members, are key components of our state Chapter. We ask that you and your colleagues attend this very important and informative meeting.

LEARNING OBJECTIVES

1. Identify how differences in the enrolled populations may explain the discrepant results in COAPT and MITRA FR trials.
2. Describe the best practices to identify good and poor candidates for the edge to edge mitral valve repair in functional MR.
3. Explain how to assess cardiac deformation with echo as a measure to be used beyond the global LVEF.
4. Apply Global Longitudinal Strain findings in a clinically meaningful manner in patients with AS and MR.
5. Discuss contemporary understanding of difficult clinical scenarios such as low flow low gradient or asymptomatic severe AS.
6. Review evidence base supporting current recommendations for DAPT after PCI.
7. Define the high bleeding risk phenotype and clinical trials examining short durations of DAPT in these patients.
8. Summarize key trials examining Aspirin withdrawal after PCI.
9. Examine existing approaches for use of triple therapy after PCI.
10. Identify the most recent recommendations from evidence-based guidelines for the treatment of venous thromboembolism.
11. Select the appropriate therapy for a patient with VTE.
12. Apply the recent evidence for the prevention of VTE in hospitalized medical patients at risk for VTE.
13. Evaluate the evolving perspectives within cardiology community and leadership on MOC through CME and longitudinal assessment.
14. Assimilate practical tips for the management of complex cardiac patients with problems likely to be encountered in cardiology practice.

OKLAHOMA ACC'S PURPOSE

Our purpose is to contribute to the prevention of cardiovascular diseases, to ensure optimal quality of care for individuals with such diseases, and to foster the highest professional ethical standards.

ACCREDITATION STATEMENT

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the University of Oklahoma College of Medicine and the Oklahoma Chapter American College of Cardiology. The University of Oklahoma College of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

The University of Oklahoma College of Medicine designates this live activity for a maximum of 4.75 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

CONFLICT RESOLUTION STATEMENT

The University of Oklahoma College of Medicine, Office of Continuing Professional Development has reviewed this activity's speaker and planning committee disclosures and resolved all identified conflicts of interest, if applicable.

POLICY ON FACULTY, PRESENTERS AND JOINT PROVIDER DISCLOSURE

It is the policy of the University of Oklahoma College of Medicine that the faculty, presenters and joint provider disclose real or apparent conflicts of interest relating to the topics of this educational activity, and also disclose discussions of unlabeled/unapproved uses of drugs or devices during their presentation(s).

2020 ANNUAL SCIENTIFIC MEETING

GENERAL INFORMATION

OVERALL DESCRIPTION

This annual one-day meeting is an exciting program that will highlight world-class faculty discussing up-to-date information about drugs and technologies that are indicated in a variety of common cardiovascular diseases. The content will be oriented toward the entire cardiac care team. The educational objectives of the session will address the skills required of cardiovascular professionals for providing evidence based care to patients with cardiovascular disease. The intimate format of this meeting will allow the audience to interact with invited speakers, network with colleagues from across the state and meet the cardiology fellows-in-training within the state.

TARGET AUDIENCE

Adult Cardiologists, Pediatric Cardiologists, Cardiothoracic Surgeons, Cardiology Fellows-in-Training, the entire Cardiac Care Team, including but not limited to: Nurses, Nurse Practitioners, Clinical Nurse Specialists, Physician Assistants, Pharmacists

OVERALL NEED

STATEMENT

Cardiovascular science is constantly evolving, with both new discoveries and new therapies being published each year.
